Hi,

Thank you for purchasing **SoPainted Photoshop Action**.

This action will create a realistic smudge painting effect on your photo in just 1 click! Just open your photo, click a play button, then your photo will be painted automatically in just a few minutes!

Features:

- **6 painting levels** to cover a wide range of photo dimensions (1000 - 5500px)
- **3 contour levels** to give more details on your photo-work
- **A set of adjustment tools** to simplify your works in customization
- **15 color styles** to beautify your work
- **Flexible**. You can always easily tweak the look after applying the action.
- **Multi language**. Compatible to work on all Photoshop languages.
- **Well organized layers**. All effects are created in a well-organized structure, named and have unique colors. This will make you easy to work with.
- **Non-Destructive**. All effects are created without damaging your original photo.

You are free to use this action for commercial projects or anything you like. However, you may NOT resell or distribute this action and claim as your own.

Thank you

Warm regards,

SodaSong
